

Clinical Stream

MSK	Neuro	Paediatrics	Breast
Gi/GU	Cardiac	Chest	

Other streams:

Imaging Informatics	Emerging Technologies
Service Delivery	Eponymous lectures

Monday June 25th

08:30	Military radiology		Pancreas	Masterclass 1: Physics toolbox	Breast Reconstruction		Masterclass 1: Radiation protection supervisors
08:45							
09:00		Refresher course - stroke imaging					
09:15							
09:30							
09:45							
10:00	Lower limb trauma		Masterclass: pancreatico-biliary	Image quality assessment – latest developments	Minimal invasive breast surgery	Radiographers in the Digital World: How to drive PACS? <small>PACS CROSSING BOUNDARIES</small>	Radiology research: competing for time and resources
10:15							
10:30							
10:45							
11:00							
11:15							
11:30							
11:45							
12:00							
12:15	CoR: William Stripp Memorial Lecture						
12:30							
12:45							
13:00		Neuroimaging – emergency scenarios					
13:15							
13:30	Masterclass: spine trauma		Hot topic - What man can learn from a dog...	Breast imaging: future			Seven day imaging services
13:45							
14:00							
14:15							
14:30							
14:45							
15:00			After the Barium has gone				
15:15							
15:30		Neuro -Film viewing for FRCR & beyond					
15:45							
16:00	Masterclass: axial trauma				Breast screening		
16:15							
16:30							
16:45				BAMMR			
17:00							
17:15							
20:00	Bar Night						
						Clinical data sharing: frameworks to support the vision Part 1 <small>PACS CROSSING BOUNDARIES</small>	2011 The Year of Radiotherapy – What did it achieve?
						Clinical data sharing: frameworks to support the vision Part 2 <small>PACS CROSSING BOUNDARIES</small>	Implementing Innovation in Imaging
							Student Radiographer session

Tuesday June 26th

08:30	Digital update latest developments in digital mammography	Interesting head and neck cases: FRCR and beyond	Masterclass 2: Radiation Protection Supervisors	Sunrise session: Knee MRI	Masterclass 2: Physics Toolbox	Pleural Imaging & Intervention	Masterclass 1: Uroradiology	Imaging the dead	
08:45									
09:00									
09:15									
09:30									
09:45	National approaches to IT and changing PACS delivery	Masterclass - head and neck	Nurses in imaging departments: luxury or a necessity	Masterclass: Spine	The physics & technologies of dual-energy CT	Airways disease - refresher course	Masterclass 2: uroradiology	History of radiology	
10:00									
10:15									
10:30									
10:45									
11:00									
11:15									
11:30									
11:45									
12:00	BIR Agfa Mayneord Lecture								
12:15									
12:30									
12:45									
13:00			Commissioning imaging services – working together to get it right!						
13:15									
13:30									
13:45									
14:00	Future of PACS configuration and data management strategies Part I	Neuro - Infectious and inflammatory conditions	Improving primary care access to imaging	Masterclass: Major trauma	CT Optimisation	Vascular disease - refresher course			
14:15									
14:30									
14:45									
15:00									
15:15									
15:30									
15:45	Future of PACS configuration and data management strategies Part II	Brain tumour imaging	Delivering IR services – What has changed	Masterclass: musculoskeletal tumours	IPEM SATELITE	Masterclass: chest and papers	Pregnancy and its problems		
16:00									
16:15									
16:30									
16:45									
17:00									
17:15									
17:30									
20:00	Conference Party								

Wednesday June 27th

08:30	Refresher Course - lower limb	Pulmonary infections	Hot topics in Cardiac Imaging	Masterclass 3: physics toolbox	Paediatric- What's new?	Masterclass 3: Radiation Protection Supervisors	
08:45							
09:00							
09:15	Masterclass – arthropathies	Clinical governance in IT - how much can we afford? 	Chest - interactive HRCT	Practical cardiac CT	Paediatric imaging	Interventional x-ray	Debate: In the current economic climate it is reasonable for consultants to have fewer SPAs ?
09:30							
09:45							
10:00							
10:15							
10:30							
10:45							
11:00	IPEM John Mallard Lecture SOR Welbeck Memorial Lecture	Out of the box-new ways of delivery PACS services 	Lung Cancer	Cardiac Interactive session	Contemporary issues in paediatrics + papers	Developments in CT dosimetry & phantoms 	Future of PET
11:15							
11:30							
11:45							
12:00							
12:15							
12:30	MSK ultrasound masterclass	GU/oncology Expert panel and scientific session	Radiation protection – shielding update	Paediatric Infections			
13:00							
13:15							
13:30	MSK ultrasound masterclass	GU/oncology Expert panel and scientific session	Radiation protection – shielding update	Paediatric Infections			
13:45							
14:00							
14:15	MSK ultrasound masterclass	GU/oncology Expert panel and scientific session	Radiation protection – shielding update	Paediatric Infections			
14:30							
14:45							
15:00	MSK ultrasound masterclass	GU/oncology Expert panel and scientific session	Radiation protection – shielding update	Paediatric Infections			
15:15							
15:30							
15:45	MSK ultrasound masterclass	GU/oncology Expert panel and scientific session	Radiation protection – shielding update	Paediatric Infections			
16:00							
16:15							
16:30	MSK ultrasound masterclass	GU/oncology Expert panel and scientific session	Radiation protection – shielding update	Paediatric Infections			
16:45							
17:00
